Circular Spanner Customer Faxback Form

Date _____

Company _____

Person to contact _____

Phone _____ FAX _____

Email _____

Please fill out the following information as it applies to your application and include a print (or sketch) of the tool or the part it engages if available. Please note that if the custom nature of your tool requires that we draw an involved print in order to quote, we may charge for this service and we will notify you.

Please note if this tool needs to be integrated with a torque handle click here instead for our [Custom Torque Wrench RFQ Form](#).

1) Quantity to be quoted (if you will need prototype quantities please include them)

2) Description of how tool will be used (i.e. heavy duty, high torque, single use, light duty)

3) Plating requirements (i.e. Black oxide, zinc, chrome) _____

4) Overall tool length requirements or restrictions due to space

5) Material requirements if any (i.e. special steel) _____

6) Labeling requirements if any _____

7) Specify fixed size or adjustable size style _____

8) Diameter of part that wrench will turn (or range of diameters for adjustable tool). Please be sure you are specifying the diameter and not the radius. Include units.

9) Specify pin style or hook style _____

10) For pin style, diameter of hole in part being turned (include units) _____

11) For pin style, depth of hole in part being turned (include units) _____

12) Thickness of part being turned or any requirements or restrictions that will govern the thickness of the material we will use to make the wrench body

13) Any other information _____

14) Please attach any photos, sketches, or drawings that will help us quote your application.
